LinkedIn: [Bilal Ahmed](#)

Results-driven and detail-oriented Full Stack Web Developer (Entry-Level) with hands-on experience in building scalable and responsive web applications using React, JavaScript, PHP, and MySQL and many more given below. Strong understanding of frontend and backend development and architecture, REST APIs, and database systems. Passionate about project management & writing clean, maintainable code and developing user-centric solutions. Seeking an onsite internship/job opportunity to contribute technical skills while gaining industry experience.

TECHNICAL SKILLS

Frontend

- HTML5, CSS3, JavaScript (ES6+)
- ReactJS, Vite, Bootstrap
- Responsive Design & UI/UX Principles

Backend

- PHP, Python (Fast API)
- REST APIs, Form Handling, Authentication

Databases

- MySQL and MongoDB

Tools & Platforms

- Git & GitHub, VS Code, XAMPP
- Linux (Ubuntu, Kali), Windows

PROFESSIONAL EXPERIENCE

Frontend Developer Intern (Remote)

Hex Software

4 Weeks Internship (March 1, 2026 – April 1, 2026)

- Developed responsive and interactive user interfaces using React.js and modern JavaScript
- Collaborated on real-world frontend tasks and improved UI performance

- Applied best practices in UI/UX design and cross-browser compatibility
- Gained experience working in a remote development environment

Frontend Developer Intern (Remote)

Developers Hub Corporation

6 Weeks Internship (01 May, 2025 – 15 June, 2025)

- Developed the frontend of an e-commerce website using React, HTML, CSS, and JavaScript
- Converted Figma UI/UX designs into fully functional, responsive web pages (Figma to Code)
- Optimized user interface for better usability, performance, and cross-device compatibility
- Collaborated with team members to debug issues and enhance application features
- Strengthened skills in version control (Git/GitHub) and modern development workflows

PROJECT EXPERIENCE

AI-PECO (AI-Powered Energy Consumption Optimizer) (Ongoing)

GitHub: [AI-PECO](#)

Preview: [AI-PECO Frontend](#)

Technologies: React, JavaScript, Python, IoT Concepts

- Developed an intelligent system to monitor and optimize energy consumption
- Implemented user-friendly dashboards and data visualization
- Focused on real-world energy efficiency solutions

Weather Web Application

GitHub: [Weather App](#), **Live Demo:** [Preview](#)

HTML, CSS, JavaScript, OpenWeatherMap API

- Developed a real-time weather app using public APIs
- Displayed location-based temperature and weather conditions

Swift Converter (Ongoing)

GitHub: [Swift converter](#) , **Live Demo:** [Preview](#)

HTML, CSS, JavaScript, PHP

- Developing a multi-functional web platform for file conversions
 - Implementing PDF, image, and compression features
-

EDUCATION

- **Bachelor of Science – Software Engineering (8th semester – cont)**

University of Mianwali, Mianwali

2022 – 2026 (2.76 out of 4.00)

- **F. Sc – Pre - Engineering**

Superior Group of Colleges, Quaidabad

2020 – 2022 (815/1100)

- **Matric – with Medical**

Govt. High School, Shadia

2018 – 2020 (911/1100)

CERTIFICATIONS & ACTIVITIES

- Google UX Design Professional Certificate
- Google Project Management (Ongoing)
- Google AI Prompting Essential
- Participant – GENZ Coding Quest, University of Mianwali
- Attended Computational Intelligence & Data Science Conference 2025

SOFT SKILLS

- Problem Solving & Debugging
- Team Collaboration
- Time Management
- Fast Learner & Self-Motivated
